

PRODUCT GUIDE 2021

QBCC Licence number: 15071650
NSW Licence number: 350561C

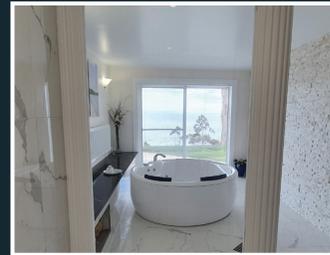

Thermatech began operations in 1989, evolving to become one of the longest operating manufacturers of decorative mouldings and features to the construction industry in Australia.

A family-owned and operated business, Thermatech offers superior quality products and an unsurpassed depth of knowledge from its team of building professionals.

We offer an installation service throughout South East Queensland and Northern New South Wales or alternatively we can have your product delivered and provide comprehensive installation guides and telephone support for self-installation.

Our product range is flexible and can be customised to meet any client's requirements.

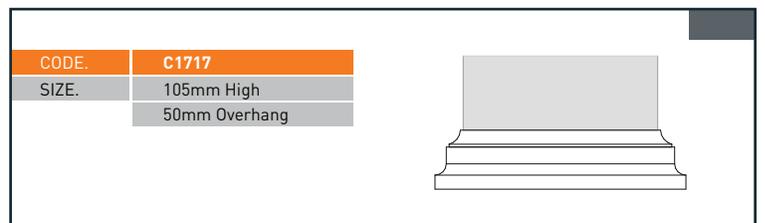

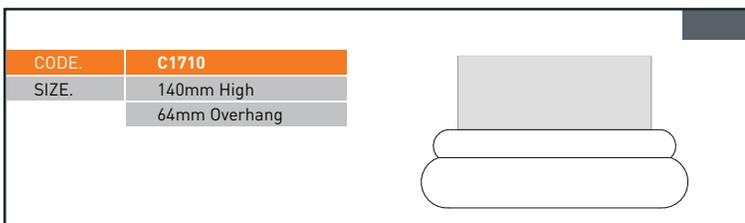

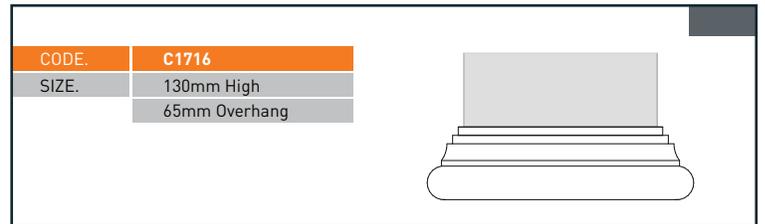

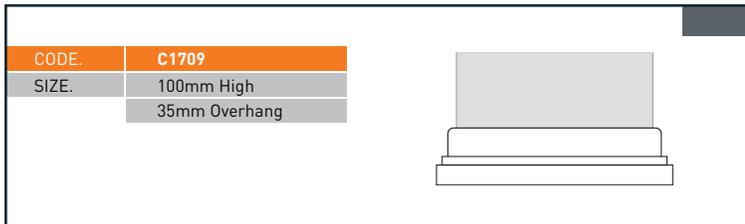

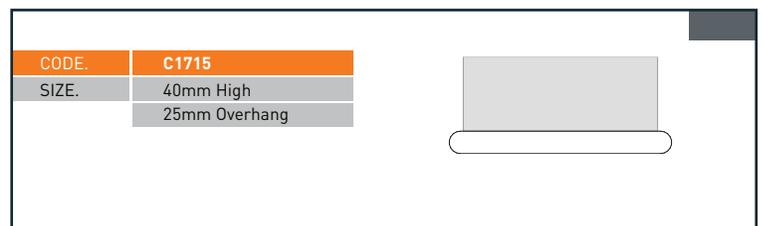

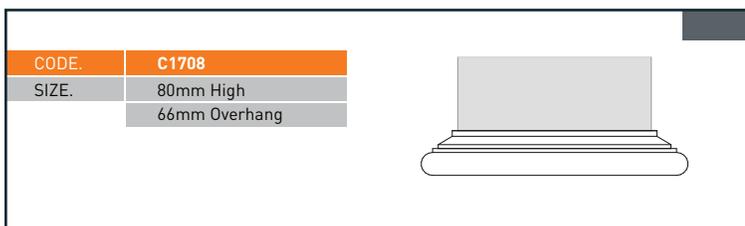

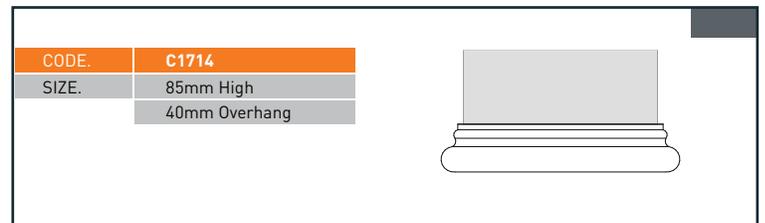

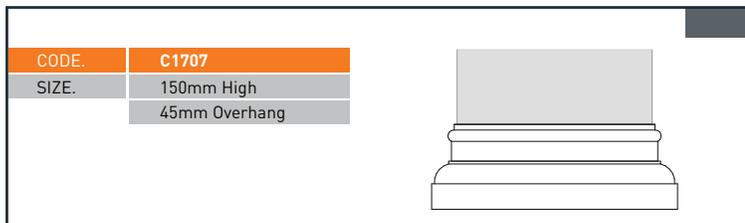

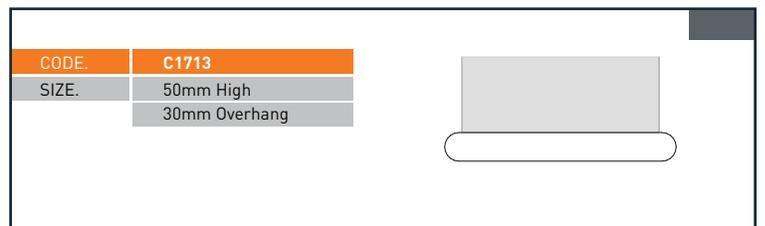

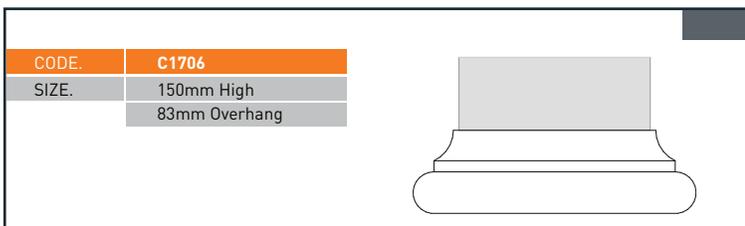

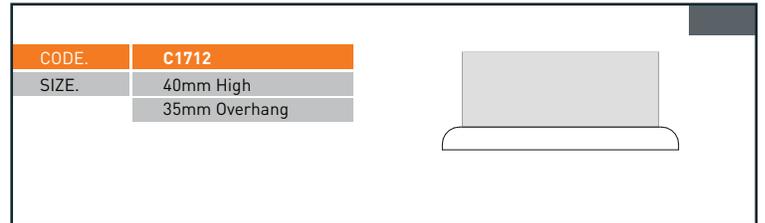

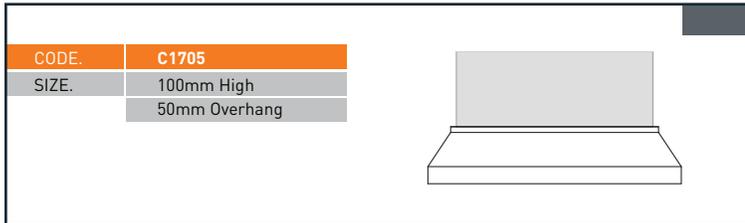

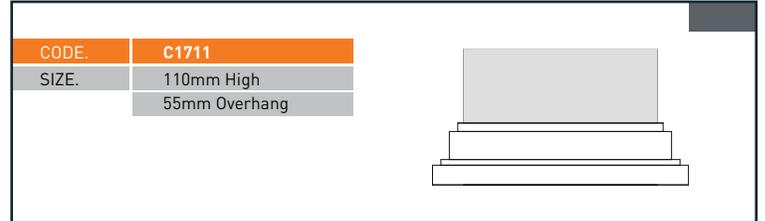

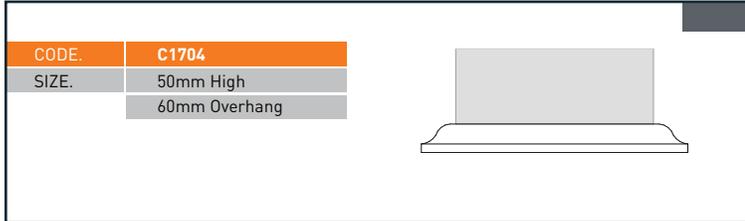

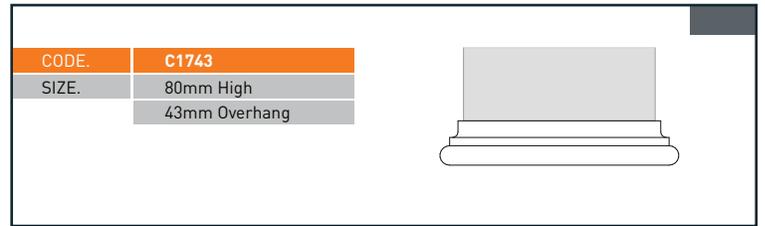

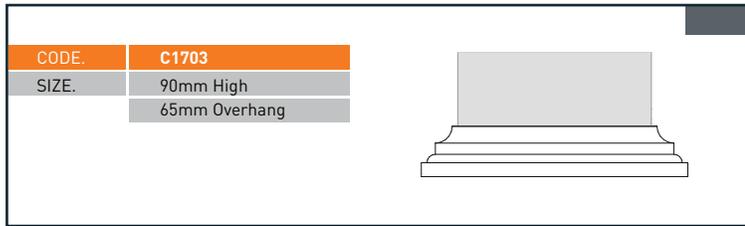

**If you can dream it,
we can create it!**

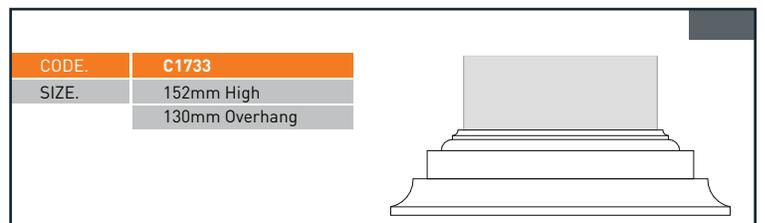

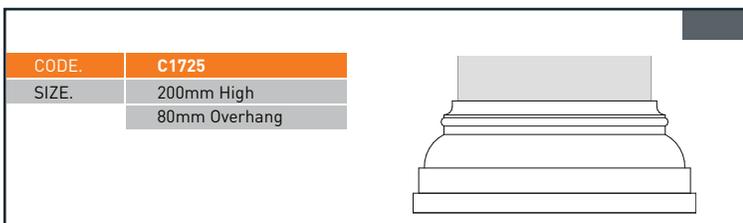

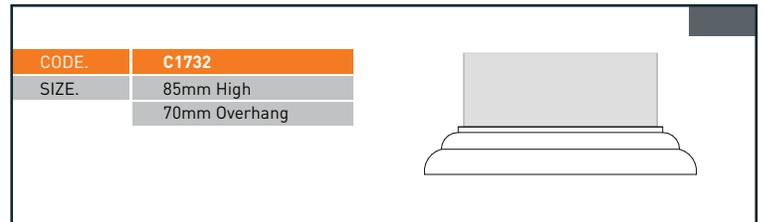

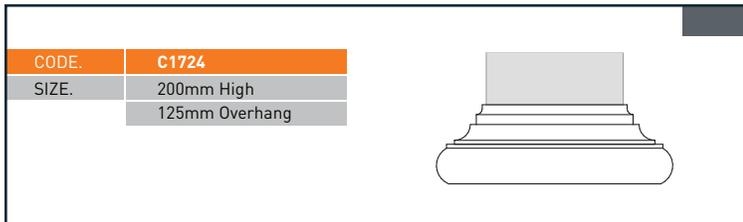

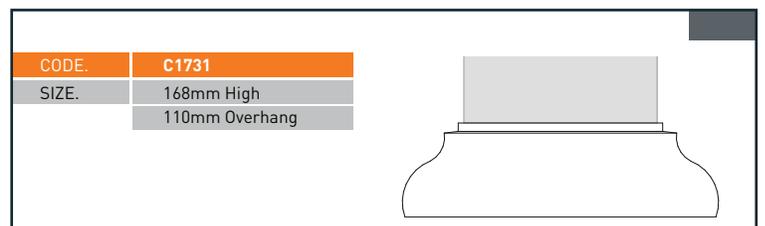

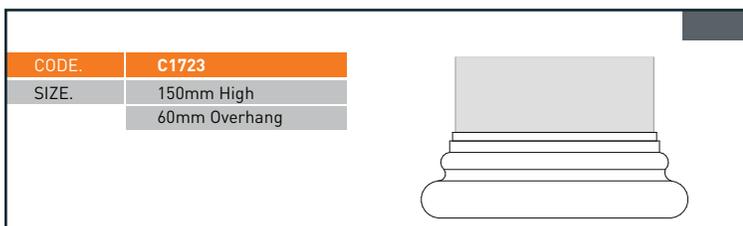

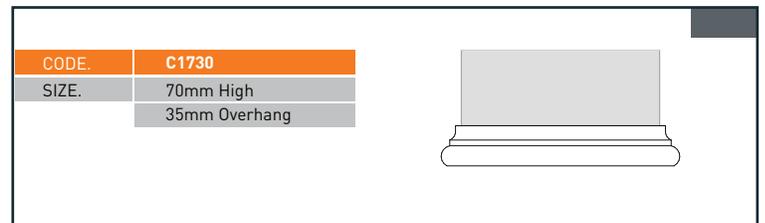

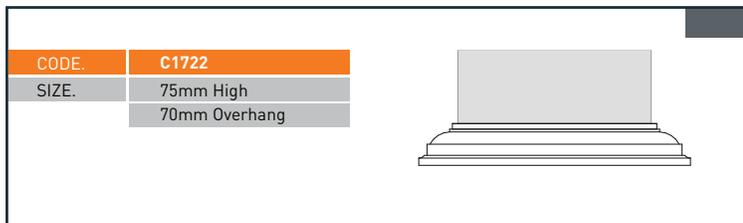

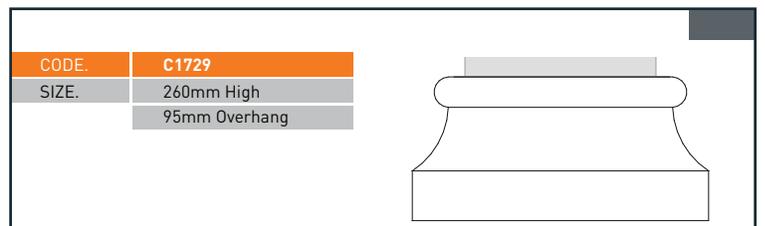

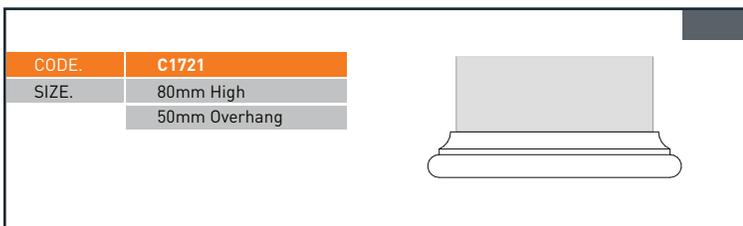

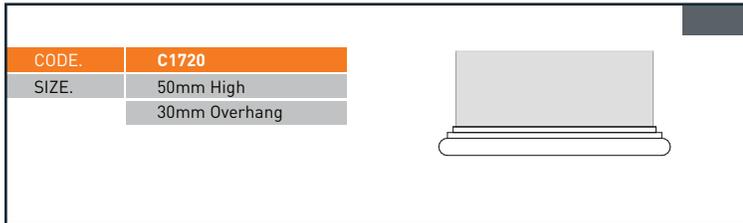

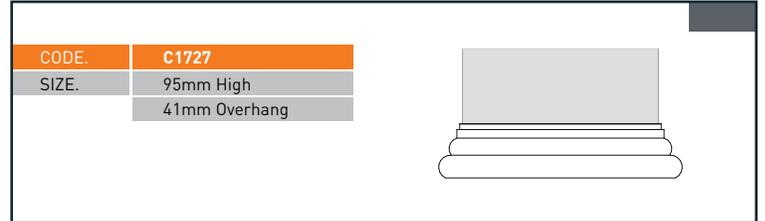

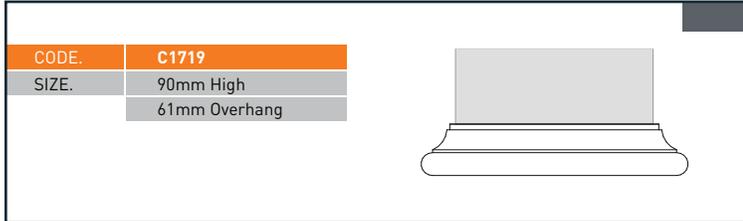

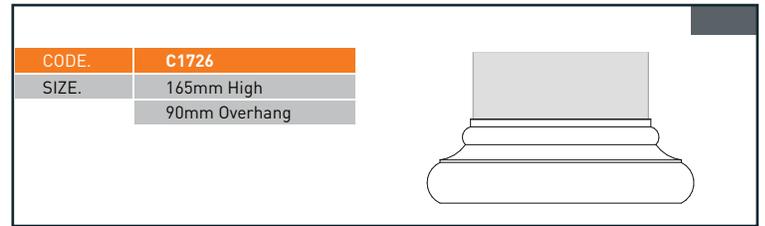

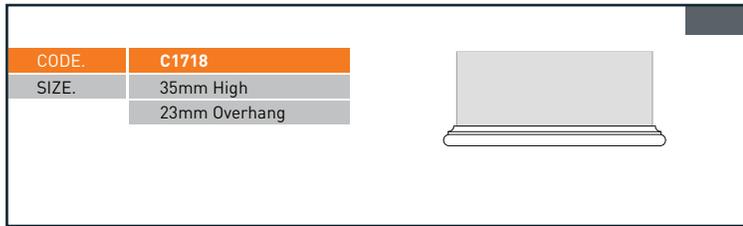

COLUMN & CAPITALS

Thermatech's column surrounds and capitals can help to create a period correct feature or add an elegant impression for any architectural style. Easy to install, columns can be customised to each individual's requirements. Columns are available as either round, square, tapered or fluted. Choose a capital from our extensive catalogue to compliment your columns. These will add flair and visual appeal to any space whether it be a new home build, restoration or renovation.

SOFFIT & PARAPET MOULDS

Parapet moulds are used for decorative purposes as in “the crowning of your building”. They can be installed on top of homes and between floor levels to add a layering effect and define the two different levels.

SOFFITS & PARAPETS

Please note that different size options are available.

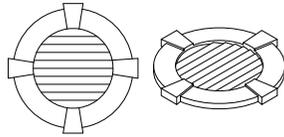

MOTIVES, DENTILS, CORBELS, QUOINS & SPECIAL FEATURES

These mouldings are often custom made to create a unique decorative feature to the front façade of your home. Whether it is a “Hampton’s” style mock vent, an “Art Deco” detailed door entrance or “Federation” style corbel these features add character and charm to enhance the period style or theme being created.

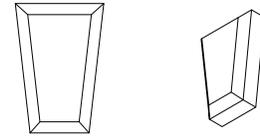

Circular Vent (with Keystones)

CODE.	CV600

SIZE.	150mm High 150mm Wide 55mm Thick

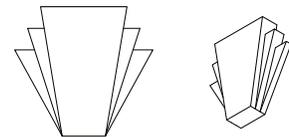

Rectangle Vent

CODE.	AL2015
SIZE.	350mm Wide 550mm Long 30mm Thick

Keystone

CODE.	KS2030
SIZE.	300mm High 200mm Wide 60mm Thick

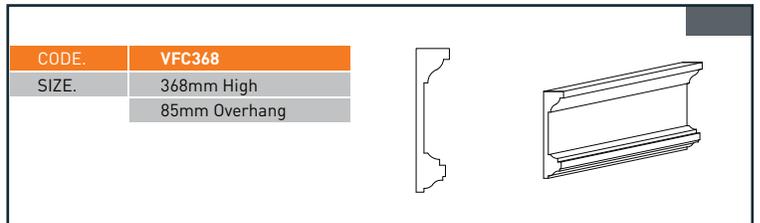

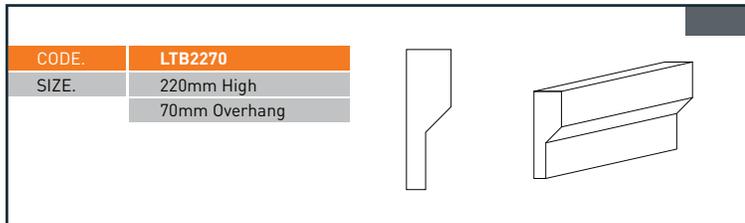

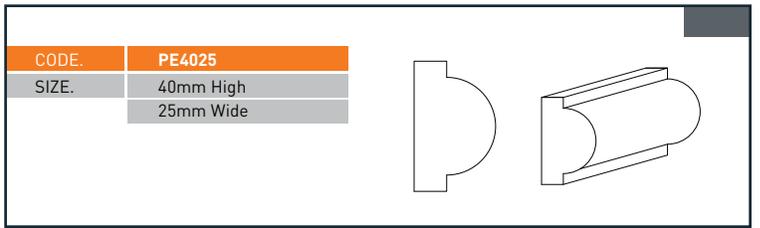

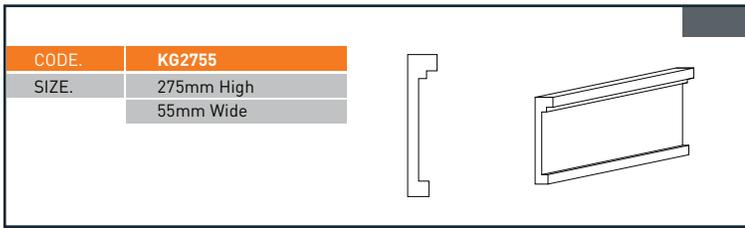

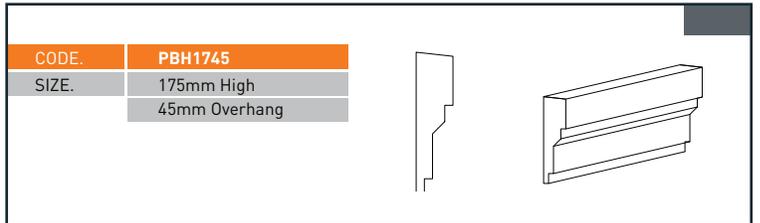

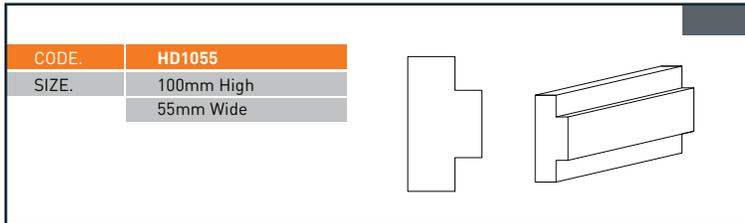

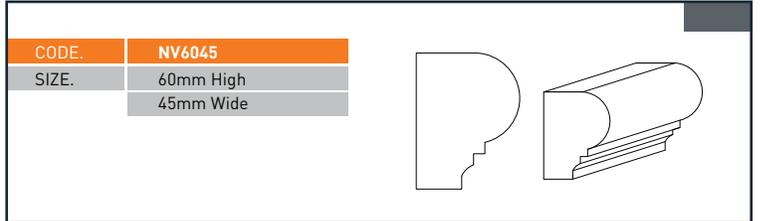

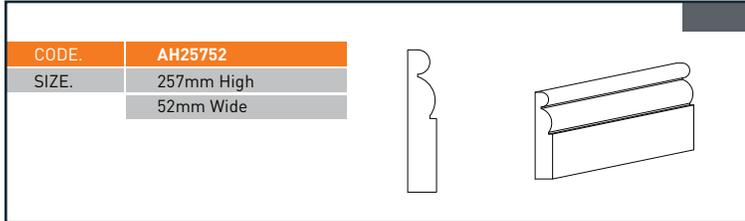

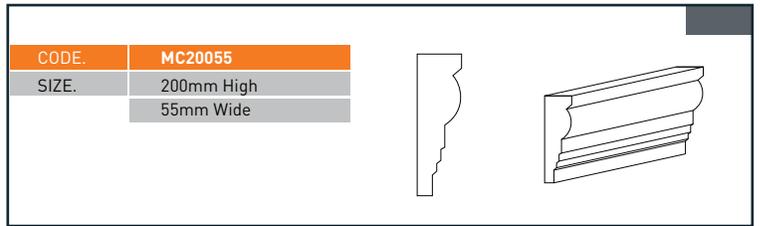

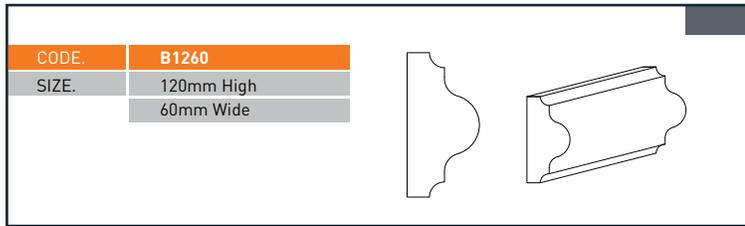

BANDING / DADO MOULDS

These moulds are used as a border between different wall finishes or just to provide a break on a large wall surface. They can either be a flat finish without any pattern or can be profile cut to give a little more elegance.

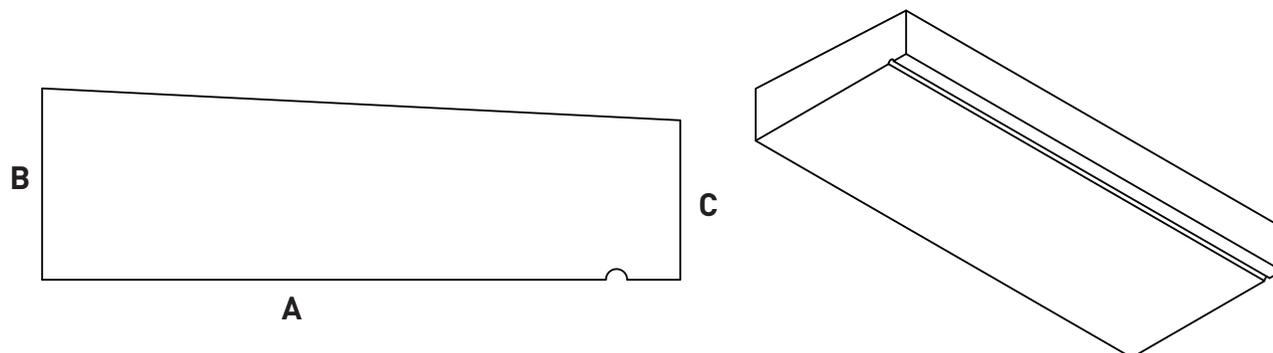

BANDING & DADO MOULDS

SUNHOODS & BLADES

With today's modern streamline home design sunhoods and blades will enhance the cosmetic appearance whilst also providing a practical solution for the protection of windows and doors from the elements.

Standard Sizes

A	B	C
600mm	180mm	150mm
600mm	230mm	200mm
600mm	280mm	250mm
600mm	330mm	300mm
500mm	175mm	150mm
500mm	225mm	200mm
500mm	275mm	250mm
500mm	325mm	300mm
400mm	140mm	120mm
400mm	170mm	150mm
400mm	220mm	200mm
400mm	270mm	250mm
400mm	320mm	300mm
300mm	140mm	120mm
300mm	170mm	150mm
300mm	220mm	200mm
300mm	270mm	250mm
300mm	320mm	300mm

Above are some of our standard sizes however they can be customise to suit your requirements.

ARCHITRAVE & SILLS

An architrave is a moulding installed around a window, door or other types of openings on your home. Architraves are also referred to as 'trims' or 'casings', and have both a practical and decorative function.
